# eurodib

**At Eurodib, we strive to be at the forefront of product development and innovation without sacrificing the essentials. We pride ourselves in our knowledge and understanding of crucial requirements for day-to-day foodservice operations and large-scale production. Traditionally known for supplying fine European products that have been trusted and valued in the industry for years, we are constantly seeking new ways to meet the growing needs of an ever-changing market.**

**We present you with some brand-new products, updated features and forecast what is to come. These are exciting times for us, and we're honored to have your trust and partnership as we continue moving forward.**

# DISHWASHERS

- 8** Undercounter
- 10** Glasswashers
- 11** Pass Through
- 14** Pots & Pans
- 15** Universal Washer

Through meticulous design and technological innovation, Lamber has become a leader in the industry with dishwashing products that stand out aesthetically and for their functionality.

Their approach to manufacturing is a direct response to customer demand, blending sophisticated data processing techniques with human expertise. Product design, procurement of raw materials, assembly, testing, packaging, and shipment are all completed in-house, and to the highest of standards.

In 1948, Lamber made a commitment to delivering high-quality product and reliable services; the UNI EN ISO 9001 certification is a result of their continued dedication. Today, 80% of Lamber's production is exported internationally, providing the global market with avant-garde dishwashers adapted to the needs and desires of its vast clientele.

**Distinguished by their reliability, cost efficiency and quality construction, Lamber dishwashers are built to withstand the demands of the busiest kitchens, leaving dishes sanitized after every cycle without the need for harsh chemicals. Reduced consumption of water and detergent provides significant savings, and skilled technical support for parts and services brings peace of mind.**

## Standard Features

- AISI 304 18/10 stainless steel construction inside & out
- Stainless steel wash and rinse arms (top & bottom)
- High temperature rinse cycles
- User-friendly control panel
- Water consumption as low as 0.5 gal/cycle (on most models)

## Special Features

(Available on select models)

- Soft Start
- Multiple options for cycle duration
- Double wall thermal and acoustic insulation
- Interactive control panel with programmable wash parameters
- Energy Star Certification

# Undercounter

## Deluxe high-temperature undercounter dishwashers

Soft start • Soap and rinse pumps • Stainless steel upper and lower rotating wash and rinse arms  
 • Removable control panel for easy maintenance • Automatic tank loading • Door opening safety device • Thermocontrol: guarantees accurate rinse temperature every cycle including during long-term, continuous use • Security thermostat

# ICE & REFRIGERATION

- 21** Ice Makers
- 25** Juice Dispensers
- 26** Slush Dispensers
- 27** Blast Chillers
- 30** Ice Cream & Gelato
- 32** Wine Cellars

**“Making ice is our business.  
Doing it with passion and care is our mission”**

Ethics in trading, transparency in managing the company and respect for the institutions of every country in the world summarize the principles which underpin Brema’s business.

They are Certified UNI EN ISO 9001:2015 to guarantee the quality of their business process.

**“We respect the environment and those who live in it”**

Brema wants to contribute to a more eco sustainable future with machines “designed for the environment”.

The latest proof is their work with new refrigerant gases. Since 2003, they follow a corporate Code of Ethics to ensure an Ecologically conscious behavior and respect towards others.

**Ice that gives you confidence**

The full range of Brema’s products is certified by International certification bodies, such as UL, ETL, and NSF according to safety, energy efficiency and sanitation standards. All machines are approved and marked cULus, cUL Energy Certified, ETL Sanitation and NSF and compliant with DOE Energy Conservation standards.

With simple, clean lines and a smooth stainless steel finish, Brema ice machines add a touch of elegance to your workspace. Known and trusted in the industry for high-quality construction and consistent production, these machines are the most reliable choice for all your ice production needs.

## Features

- Stainless steel AISI 304 interior and exterior prevents rust and corrosion
- Stainless steel evaporator reduces mineral build-up for increased pump and compressor operation. Produces ice cubes of pure, crystalline quality in a solid, compacted state.
- Fixed and non-rotating evaporators ensure longevity
- Individual ice cubes are longer lasting, have better displacement, maximize production and reduce service costs
- Thermostatic control on the ice bin enables you to increase or decrease production, as needed
- Water pump is not submerged in water, reducing complications and providing longer lasting results
- Fire sensor detects intense heat and shuts down the machine's electrical components
- Parts are easy, quick and affordable to replace. The electro-mechanical components include 2 thermostats (bin & evaporator) and a timer. No circuit boards or electronics.
- Large diameter metal sprayers ensure free water flow and reduce the effects of hard water
- Equipped with air cooled system and now manufactured with R290 refrigerant gas

## Ice Cleaner

PRODUCT CODE: **ICECLEAN01**  
CASE QUANTITY: 24 bags  
DESCRIPTION: Colorless and odorless powdered agent  
CONCENTRATION: 55 g (1 bag) for 0.66 Gal (2.5 L) of water

**NEW**

BREMA's NEW ice machine cleaner simplifies your maintenance. Designed exclusively for BREMA ice machines, it will completely descale and clean the interior and exterior surfaces of your machine.

A diluted solution of ice machine cleaner and water can be poured directly inside the machine basin for interior wash or applied directly with a disinfected mop/sponge to interior/exterior components and surfaces.

13g

# Cube Ice Makers

## Ice makers

Cube machines by BREMA are heavily used in bars, restaurants, hotels and clubs for ice cubes with elegant form and clear, crystalline finish.

**NEW Automatic Washing System:** CB series machines with R290 gas are now being built with the integrated AWS feature. In 1.5 hours your machine will complete its self-cleaning cycle, after which your machine will be completely cleaned and descaled.

**Sprayer System:** Only the purest of water forms ice as it's sprayed onto a horizontal evaporator while the mineral rich water returns to the internal tank and is subsequently removed at the end of the production cycle. The result is a pure and crystalline cube.

**Compact, crystal ice • Adjustable stainless steel feet • Air cooling system • Easy cleanable internal rounded surfaces • HCFC-free insulated storage • RoHS free • Retractable insulated door • Electromechanical operation • ON-OFF switch • HFC free • HC R290 refrigerant gas**

# Ice Flake Makers

## Ice flake makers

Granular Ice,  
80-82% Dry

Flakes are favored for chilled displays and presentations, like oyster platters and buffet stations. The flakes have a temperature just below 0°C and are malleable, which allows for creativity and design. Ice flakes are versatile, and machines vary in size and production capacity. Mostly suitable for retail, fish and seafood, and therapeutic sectors.

**Granular System:** The auger and ice breaker work together to create irregular shapes in a continuous fashion. The simplicity of the production process makes for cost effective operation.

**Standard features:** 1 L (0.26 Gal) water = 1 kg (2.2 lbs) ice • AISI 304 stainless steel evaporator • Air cooling system • Easy cleanable internal rounded surfaces • Dust-proof water basin

Pebble Ice,  
91% Dry

# Ice Pebble Makers

## Ice pebble makers

Easy-melting ice, this machine is very popular in bars, pubs, restaurants and night clubs. The smaller units have integrated bins and are compact, while the larger units are designed to keep up with your high-volume needs and have separate bins with greater storage capacity.

**Pebble System:** The combined action of an auger and extruder produces ice continuously for a consistent supply. The reliability of the inner working components ensures low operating costs and high efficiency ice production.

**Standard features:** 1 L (0.26 Gal) water = 1 kg (2.2 lbs) ice • AISI 304 stainless steel evaporator • Air cooling system • Easy cleanable internal rounded surfaces • Dust-proof water basin • RoHS free • Retractable insulated door • Electromechanical operation • ON-OFF rocker switch • Automatic water charge • HFC free • HC R290 refrigerant gas

# Slush Dispensers

## Frozen slush dispensers

Eurodib's slush machines by Cofrimell are a must-have in the foodservice industry. High chilling capacity will keep your beverages cold in the hottest weather. High-quality construction and easy cleaning make them indispensable.

CFC-free cooling system • Stainless steel weld-free cylindrical evaporator • Forced air-cooled hermetic compressor • Low tension (12V), wire-free lid with LED technology • Easy assembly/disassembling without using tools

Designed exclusively for use with powder or syrup mixes diluted with WATER ONLY. May be used with alcohol (such as vodka, tequila, rum, etc) as long as no pre-mixed beverages are used, canned or bottled (such as beer, wine, cider or coolers).

*\*220V model available upon request. Special order item requiring 50% non-refundable deposit before processing.*

# Blast Chillers

## Blast chillers

The Eurodib blast chillers are ideal for chefs, pastry and ice cream makers who depend on reliability and simplicity. They are fitted with an intuitive and user-friendly electronic control panel, which allows chilling cycles to be set extremely rapidly. Chilling or freezing cycles can be set by time or core-probe.

Hard and soft freeze preset options • Automatic defrost every 6 hours • Temperature and time display

**HACCP compliant:** The chilling cycle allows a reduction of the internal temperature from 70°C (158°F) to 3°C (37.4°F) in 90 minutes (max). The freezing cycle allows a reduction of the internal temperature from 70°C (158°F) to -18°C (-0.4°F) in 240 minutes (max).

Ambient temperature of 86 °F (30 °C); Evap. -40 °F/°C; Cond. 104 °F (45 °C); 65 % Relative Humidity

# Blast Chillers

## Blast chiller for trolleys

BCC Blast chillers for trolleys are designed to meet the medium to large-scale food preparation needs, from restaurant kitchens to semi-industrial bread and pastry manufacturers. Freezing cycles can be set by time or via probe inserted into the core of the product.

Built entirely of AISI 304 stainless steel. Fitted with insulated floors, ramps that are 20.5" (52 cm) long for trolleys and high-performance condensing units that allow for consistent temperature control • 7" touch-screen control board (8 languages) including programs such as: continuous cycle for ice cream, fish sanitizing cycle and a self-diagnostic system • USB device and core probe come standard • Automatic defrost system with pause

# Gelato Cabinet

## Ice cream & gelato freezing cabinet

The ARG30 freezing cabinet is made with quality design and performance in mind

Easy-to-use electronic control panel • Accommodates trays 23.5 x 31.5" (60 x 80cm) • HCFC-free Polyurethane injected resin insulation • Radial bottom without corners for easy cleaning • Removable and replaceable magnetic door seal

	ARG30
Power	115V, 1000W, 10A
Plug	5-20P
Refrigerated power	3727 BTU/hr, 1093W
Refrigerant gas	R290
No of shelves	5
Shelf dims. (L x W)	29" x 22"
Temperature range	-7.6°F to 14°F (-22°C to -10°C)
Ice cream container dimension (L x W x H)*	14.2" x 6.3" x 4.7"
Capacity	26.5 Cu. Ft.
Ice cream container capacity	54 x 5 L (5.3 Qt.)
Internal dim. (L x W x H)	30" x 25.5" x 56.25"
Construction	Stainless steel
Dimensions (L x W x H)	35.5" x 30.75" x 83.25"
Net weight	375 lbs
Ship dim. (L x W x H)	32.75" x 38.25" x 88.75"
Ship weight	419 lbs

Refrigerated Power: Ambient temperature of 104°F (40°C); Evap. -9.94°F (-23.3°C); Cond. 129.9°F (+54.4°C); 40% Relative Humidity

Climatic Class: 5

# Wine Cellars

## Single and dual temperature wine cellars

Enhance your wine collection with coolers by Eurodib. Temperature control and LED display featured on all models, available with single or dual temperature zones and in a variety of sizes to suit your needs. Visit [www.louistellier.com](http://www.louistellier.com) for complete information on available accessories

Door is field reversible on all models except SE/DE units • Fan-forced evaporator cooling system  
• Adjustable feet • 1" required around all sides and 2" at the back

**spidocook™**  
PROFESSIONAL BY DESIGN

## Professional contact cooking system

SpidoGLASS

Suitable for cooking a wide variety of food items such as: toast, sandwiches, meat, fish, vegetables, eggs, etc. Uniform heat distribution ensures high quality results, and shock-resistant plates are non-stick, non-porous and impermeable to smells and tastes. SHB™ Plus technology (contact + infrared) and high temperature settings allow for versatility in use, and reduce preheat time by up to 60%. Save up to 60% in energy consumption with the Protek.Safe™ high efficiency insulation system.

Manual temperature control • Ergonomic handle • Self-locking handle bracket • 4 non-slip feet • Removable drip tray • ON/OFF button and LED indicator light • Metallic surface scraper (included)

# Food Processors

## Electric

C-TRONIC food processors are designed and manufactured for cutting, mincing, whisking and mixing foods like vegetables, meat, bread, etc. Made entirely of AISI 304 stainless steel, these units are acid and salt resistant and have high resistance against oxidation. Blades are rectified and tempered and made with cutlery steel (ASI 420); they are designed to cut, mince, whisk and mix without ever having to change utensils.

Motor and tank side-by-side, allowing the product to be isolated from the heat • Tank in 18/10 stainless steel with heat-diffusing bottom, and handles for an excellent handling and easy removal during cleaning and maintenance • High efficiency ventilated motor for continuous operation • Strong cutlery steel knives • Safety micro-switch on lid • Micro-switch on lever • Lid in transparent Tritan\* allowing excellent visibility during processing • Lid with opening to add ingredients during operation • Standard speed control • Variotronic system: stabilized speed variator • Designed without corners or edges for easy cleaning and maintenance • Included: spatula, sharpening stones, standard cutting blade

\*Tritan: BPA-Free plastic

# Mixers

## Spiral mixers

Eurodib spiral mixers are used by professionals all across North America for preparing various types of dough for restaurants, bakeries and pizzerias.

### Belt drive

Designed for commercial applications and suitable for dough with very low to very high hydration. The hook and bowl rotate simultaneously in opposite directions, increasing mixing speed and efficiency. Program and set the time you need for each type of dough with the built-in timer. Safety features include emergency stop and bowl guard switch.

# Pizza Making

## Electric dough sheeters

Eurodib P-Roll dough sheeters are perfect for rolling various types of pizza and bread doughs. With 7 settings to choose from, dough thickness can be adjusted incrementally from 0.8-5 mm.

For optimal results, we recommend a short handling period when working with cold dough, providing warmth and elasticity.

# ATMOVAC™

Our main goal in creating ATMOVAC™ was providing consistent quality and value with each of our products in the vacuum packaging category. We believe we have achieved that, and are proud to have the most diverse range of vacuum packaging and sous vide equipment currently available to foodservice operators.

Food safety is essential at ATMOVAC™. All our products and packaging undergo rigorous testing and certification before going to market. Aiming for vacuum machines to become a ubiquitous piece of equipment in professional kitchens, we offer simple time-based units, advanced units with HACCP controls and complex culinary processes built-in, and everything in between. Combined with our precise and intuitive sous-vide cooking equipment, you can achieve results of the highest standards with complete piece of mind. A machine for every task is available.

\*Sensor control: The vacuum process will end as soon as the pre-set percentage has been achieved.

\*\*Liquid control: Prevents liquids from boiling during the vacuum process. As soon as the boiling point is detected, the vacuum process stops, and the bag is sealed. With no loss of moisture, the product, pump and vacuum chamber are equally protected.

\*\*\*ACS (Advanced Control System): LCD panel, 20-program memory, secured access, gate check/maintenance alarm, USB connection, printer compatibility, HACCP compliance, easy service and maintenance.

^Optional add-ons can be installed prior to shipping or purchased separately. Professional installation required.

# Chamber Vacuum

Made in the Netherlands

## Premium chamber vacuum machines

### Cyclone

Our **CYCLONE** series delivers results when time is of the essence. Oversized pumps and large vacuum chambers speed up production and maximize output capacity.

Standard units feature a 10-program interface including: % of vacuum • VAC+ • Gas seal time • Soft air

The + models bring you the most advanced features with the ACS panel, including: LCD panel • Software in 5 languages • 20-program memory • USB connection • Label printer compatibility • HACCP compliance • Secured, multi-level access • Online programming • Marinating + Tenderizing options • Red meat packaging • Sequential vacuum • Liquid control • Jar mode

Compatible with all types of **ATMOVAC™** vacuum bags.

# Industrial Vacuum

Made in the Netherlands

## Industrial vacuum packaging machines

**Pampero**

Maximize your productivity with the ATMOVAC™ PAMPERO industrial vacuum machines. Floor model units available in either single or double chamber configurations, stainless steel housing, aluminum vacuum chamber and aluminum lid. Get the fastest, highest quality results on all your high-volume vacuum packaging needs!

Standard features: Sensor control\* • Double seal • Double sealing bars • High lid (9.5") • Digital controls with 10-program memory • Pump maintenance and cleaning program • Removable silicon holders for easy cleaning and maintenance • Insert plates included

Compatible with all types of ATMOVAC™ vacuum bags.

# Thermal Immersion Circulators

## Thermal immersion circulators for sous-vide cooking

Thermal immersion circulators by ATMOVAC are designed for precision and control. Their individual sizes and features make them suitable for a variety of applications. Delicate sous-vide cooking, precise rethermalization and controlled pasteurization processes are all possible with one product, enhancing food quality and extending product shelf life without sacrificing safety. They adapt to a variety of containers, prevent contact with air or water during use and save on energy consumption compared to an oven or gas stove. Safety features included with all units: dry-run protection, element protective cell and protection against overvoltage and overheating.

MICROWAVE: Up to 900 watts for up to 8 minutes, bags must be openend first.

## Recyclable, smooth bags for freezing & storage

PP: Polypropylene • EVOH: Ethylene Vinyl Alcohol • PE: Polyethylene

PP/EVOH/PE – Total thickness: 85 µm / 3.35 mil • Laboratory analyzed and certified to be free from BPA's, phthalates, adipates and phosphates • FDA approved • 100% Made in Italy

### SRB90

	Bag size (L × W)	Capacity	Quantity per bags/pack	Quantity PACKS per case; TOTAL BAGS per case	Ship dim. (L × W × H)	Ship weight
SRB90-0812	8" × 12"	1.57 L (1.66 Qt)	100	20 2000	24" × 16" × 7"	45 lbs
SRB90-1216	12" × 16"	3.13 L (3.31 Qt)	100	10 1000	24" × 17" × 7"	45 lbs

Compatible with: [Chamber](#) + [External vacuum machines](#)

To maintain the highest quality, the following conditions must be respected when using recyclable cooking bags (SRB):

COOK: Up to 212°F for 1 hr max, up to 176°F for 12 hrs max.

# ATV

PA: Polyamide • TIE: Foodsafe adhesive resin • PE: Polyethylene

PA/TIE/PE/TIE/PA/TIE/PE – Total thickness: 90 µm / 3.5 mil

ATV series vacuum bags are constructed of a seven-layer coextruded film with a minimum of 20% nylon. Made for use in commercial foodservice/production operations, they come in both smooth and channeled styles with EZ-TEAR opening and can be used for: storing, extending shelf-life, portion control, sous-vide cooking, rapid freezing, and rethermalizing. Made in China.

## Channeled bags for cooking, freezing & storage

### ATVCB90

	Bag size (L × W)	Capacity	Temperature range	Quantity per bags/pack	Quantity PACKS per case; TOTAL BAGS per case	Ship dim. (L × W ×H)
ATVCB90-0612	6" × 12"	1.17 L (1.24 Qt)	-40 to 221°F (-40 to 105°C)	100	10 1000	6" × 12.5" × 11.75"

Compatible with: [Chamber + External vacuum machines](#)

# Performance, Preserve & Pure

Available in  
Canada only

## Performance – Smooth bags for cooking, freezing & storage

Heat sealable copolymer • PET: homopolymer • Corona treatment

Heat sealable copolymer / PET homopolymer / Corona treatment – Total thickness: 50 µm / 2 mil

Performance vacuum bags are oven and microwave safe and feature an EZ-TEAR opening, making them ideal for grab'n'go meals to be refrigerated or frozen for later use. The self-venting technology allows excess steam to be released during heating without damaging the film or product itself. The film is biaxially oriented polyester with a heat seal coating, allowing for seal temperatures ranging from 260 to 410°F (127 to 210°C). It can withstand freezing temperatures down to -20°F (-29°C), is oven-safe to 400°F and can be used in boiling water.

### PERSOB50

	Bag size (L × W)	Capacity	Temperature range	Quantity bags per case	Ship dim. (L × W × H)	Ship weight
PERSOB50-0810	8" × 10"	1.17 L (1.38 Qt)	-20 to 260-410°F (-28 to 127-210°C)	500	12" × 9.25" × 4.5"	4 lbs
PERSOB50-1011	10.5" × 11.5"	1.98 L (2.09 Qt)	-20 to 260-410°F (-28 to 127-210°C)	500	12" × 12" × 4.5"	6 lbs

Compatible with: [Chamber vacuum machines](#)

Available in  
Canada only

## Preserve – Smooth bags for cooking, freezing & storage

PA: Polyamide • TIE: Foodsafe adhesive resin • PE: Polyethylene

PA/TIE/PE/PE/PE/TIE/PA/TIE/PE – Total thickness: 65 µm / 2.5 mil

Preserve vacuum bags are constructed of a nine-layer coextruded film with a minimum of 20% nylon, incorporating a unique technology in how the product is layered and blown. This gives the film added strength, puncture resistance, higher clarity and provides greater oxygen barrier while using 13% less plastic than a regular 3 mil vacuum bag.

### PSVSB65

	Bag size (L × W)	Capacity	Temperature range	Quantity bags per case	Ship dim. (L × W × H)	Ship weight
PSVSB65-0812	8" × 12"	1.57 L (1.66 Qt)	-40 to 250°F (-40 to 121°C)	1000	12.5" × 17" × 3"	17.8 lbs
PSVSB65-1214	12" × 14"	2.75 L (2.91 Qt)	-40 to 250°F (-40 to 121°C)	1000	14.75" × 28.5" × 3"	31 lbs
PSVSB65-1620	16" × 20"	5.23 L (5.53 Qt)	-40 to 250°F (-40 to 121°C)	500	17" × 21" × 3"	29.6 lbs

Compatible with: [Chamber vacuum machines](#)

Available in  
Canada only

## Pure – Smooth bags for cooking, freezing & storage

HDPE: High density polyethylene • LDPE: Low density polyethylene  
• TIE: foodsafe adhesive resin • EVOH: Ethylene Vinyl Alcohol

HDPE/LDPE/TIE/EVOH/TIE/LDPE – Total thickness: 75 µm / 3 mil

Pure vacuum bags are 100% recyclable and feature a multilayer barrier film, providing both high moisture and oxygen barrier properties. Our recyclable film has an innovative construction with a superior oxygen barrier, furthering our sustainable initiatives.

### PURSB75

	Bag size (L × W)	Capacity	Temperature range	Quantity bags per case	Ship dim. (L × W × H)	Ship weight
<b>PURSB75-0812</b>	8" × 12"	1.57 L (1.66 Qt)	-40 to 250°F (-40 to 121°C)	1000	12" × 9.25" × 9.5"	20 lbs
<b>PURSB75-1214</b>	12" × 14"	2.75 L (2.91 Qt)	-40 to 250°F (-40 to 121°C)	1000	14" × 14" × 9.5"	34.3 lbs
<b>PURSB75-1620</b>	16" × 20"	5.23 L (5.53 Qt)	-40 to 250°F (-40 to 121°C)	500	22" × 18.25" × 6.5"	33.6 lbs

Compatible with: [Chamber vacuum machines](#)

# Accessories

## Accessories for vacuum machines

	Description	Shelf length	Compatible with	Construction
0307701	Inclined shelf	10.25"	Arctic11	Stainless steel
0307702	Inclined shelf	12.25"	Chinook14/14+	Stainless steel
0307703	Inclined shelf	15.75"	Arctic16/16D, Chinook16+	Stainless steel
0307704	Inclined shelf	14.75"	Chinook16D/16D+	Stainless steel
0307707	Inclined shelf	19"	Cyclone201D/203D	Stainless steel

**INCLINED SHELF:** Use with your **ATMOVAC premium vacuum machine** when packaging liquids or powders to avoid spillage and ensure proper seal. Bags should never be filled more than 1/3 of the way during this process. Made in the Netherlands.

Warranty:  
3 months

**TROLLEY:** Free up counter space and add storage to your work station with this compact trolley on wheels.

Swiveling castors with brakes for extended mobility. Sturdy shelves to store printers, labels, pouches and more. Made in the Netherlands.

	Description	Compatible with	Dimension (L x W x H)	Net weight	Construction
0620703	Trolley on wheels for tabletop vacuum machines	Countertop vacuum packaging machines	23.6" x 19" x 26.5"	37.4 lbs	Stainless steel

Warranty:  
3 months

**SERVICE KIT:** Everything you need in one package to keep your **ATMOVAC premium vacuum machine** running as it should.

Average savings of 50% compared to buying parts individually. Covers 6 months of recommended maintenance. Made in the Netherlands.

	Description	Includes	Compatible with
0940112	Service kit	Original synthetic oil (0.25 L), teflon isolation tape (0.59" x 14.2"), teflon tape (1.8" x 15.7"), 2 seal wires (20.5"), lid gasket (0.22" x 78.7")	Chinook14/14+
0940124	Service kit	Original synthetic oil (0.3 L), teflon isolation tape (0.59" x 16.5"), teflon tape (1.8" x 18.1"), 2 seal wires (22.8"), lid gasket (0.22" x 90.6")	Arctic16
0940130	Service kit	Teflon isolation tape (0.59" x 40.9"), teflon tape (1.8" x 44.1"), seal wire (107.1"), lid gasket (0.31" x 98.4")	Cyclone201D/203D
0940133	Service kit	Original synthetic oil (0.5 L), 2 teflon isolation tapes (0.59" x 16.5"), 2 teflon tapes (1.8" x 18.1"), 4 seal wires (22.8"), lid gasket (0.22" x 90.6")	Arctic16D, Chinook16D/D+
0940136	Service kit	Original synthetic oil (0.5 L), teflon isolation tape (0.59" x 16.9"), teflon tape (1.8" x 18.1"), seal wire (90.6"), lid gasket (0.22" x 45.7")	Chinook16+

**LABEL PRINTER:** If you need fast, dependable printing in the most space constrained areas, you need the ZD410. This ultra-compact “fits anywhere” printer is designed for the smallest of work spaces. When it comes to flexibility, the ZD410 shines—this printer creates high-quality labels, receipts, tags and wristbands. This super-fast printer keeps your workers productive.

Direct thermal print method • 3 button user interface • Five status icons (Status/ Pause/Data/Supplies/Network) • Link-OS for unparalleled ease of management • Optional battery for cordless operation • USB 2.0, USB Host • OpenACCESS™ for easy media loading • Energy star qualified • Made in the U.S.A.

	Description	Compatible with	Volt	Dimension (L x W x H)	Net weight	Construction
0930211	ZEBRA Bluetooth and Wifi label printer for sous-vide packaging identification*	ATMOVAC+ vacuum machines	Auto-detectable (PFC compliant) 100-240VAC	8.6" x 4.5" x 6.0"	2.2 lbs	Dual-wall frame construction
0930213	ZEBRA USB ZD410 label printer for sous-vide packaging identification*	ATMOVAC+ vacuum machines	Auto-detectable (PFC compliant) 100-240VAC	8.6" x 4.5" x 6.0"	2.2 lbs	Dual-wall frame construction

\*Compatible with certain models only

	Description	Compatible with	
0930120	Liquid control kit	ATMOVAC premium vacuum machines	<p><b>LIQUID CONTROL KIT:</b> Add liquid control feature to your ATMOVAC premium vacuum machine to prevent liquids from boiling during the vacuum process. As soon as the boiling point is detected, the vacuum process stops and the bag is sealed. With no loss of moisture, the product, pump and vacuum chamber are equally protected.</p> <p>Can be installed prior to shipping or purchased separately. Professional installation required. Made in the Netherlands.</p>

	Description	Compatible with	Capacity	Dimension (L x W x H)	Net weight	Construction
ATV-DVCK	Domestic vacuum container kit	CASA and Santa Ana	0.2 Gal (800 mL) / 0.4 Gal (1.4 L) / 0.5 Gal (2 L)	6.75" x 6.75" x 3" / 4.5" / 6.5"	0.7 lbs / 0.8 lbs / 1 lb	Body (AS plastic), seal (silicone), screw cap (ABS)

**CONTAINER KIT:** ATMOVAC's ultimate food-safe storage solution for the retail market.

Includes: 3 containers and 3 lids • Reusable • Easy to clean • BPA free • Safe for use with: dishwasher, freezer & microwave • Made in China

Suggested temperature range for storage: -4 to 158°F (-20 to 70°C). Must not exceed 5 minutes in the microwave at 158°F (70°C). Do not microwave oil.

Warranty: 3 months

Chamber vacuum machines: Place the container(s) inside the vacuum chamber and start a cycle.

External vacuum machines: Requires accessory tube connecting the vacuum machine to the container lid (sold separately)

	Description	Compatible with	
CH14	Gas flush kit	Chinook14	<p><b>GAS FLUSH KIT:</b> This kit makes your ATMOVAC premium vacuum machine MAP (modified atmosphere processing) capable. It replaces the air in your packaging with an adapted gas suited for the preservation of your product, while avoiding atmospheric compression.</p> <p>Can be installed at purchase or shipped separately. Professional installation required. Made in the Netherlands.</p>
CH16	Gas flush kit	Chinook16D/D+	
CY20	Gas flush kit	Cyclone201/203D	
OH1416	Gas flush kit	Chinook16+
